Now: German Cultural Criticism):

2 of 2 review helpful Outstanding But With Flaws By Roland Spickermann This is truly an impressive collection to which the only thing comparable is Noakes's four volume collection of documents Nazism 1919 1945 Nonetheless it does still have gaps mainly with regard to everyday life in wartime and especially for 1944 1945 Descriptions of the experience and impact of aerial bombardment for example are lacking Li No documentation of National Socialism can be undertaken without the explicit recognition that the German Renaissance rdquo promised by the Nazis culminated in unprecedented horror World War II and the genocide of European Jewry With The Third Reich Sourcebook editors Anson Rabinbach and Sander L Gilman present a comprehensive collection of newly translated documents drawn from wide ranging primary sources documenting both the official and unofficial Essential No library whether public or academic should be without this remarkable resource
